VEGETINE

Purifies the Blood, Renovates and Invigorates the System.

Its Medical Properties are

Alterative, Tonic, Solvent & Diuretic.

VEGETINE is made exclusively from the juices of carefully-selected barks, roots and herbs, and so strongly concentrated, that it will effectually eradicate from the system every taint of **Scrofula, Scrofulous Humor, Tumors, Cancer, Cancerous Humor, Erysipelas, Salt Rheum, Syphilitic Diseases, Canker, Faintness at the Stomach,** and all diseases that arise from impure blood. **Sciatica, Inflammatory** and **Chronic Rheumatism, Neuralgia, Gout and Spinal Complaints,** can only be effectually cured through the blood.

For **Ulcers** and **Eruptive Diseases** of the **Skin, Pustules, Pimples, Blotches, Boils, Tetter, Scaldhead and Ringworm,** VEGETINE has never failed to effect a permanent cure.

For **Pains in the Back, Kidney Complaints, Dropsy, Female Weakness, Leucorrhea** arising from internal ulceration, and uterine diseases and **General Debility,** VEGETINE acts directly upon the causes of these complaints. It invigorates and strengthens the whole system, acts upon the secretive organs, allays inflammation, cures ulceration and regulates the bowels.

For **Catarrh, Dyspepsia, Habitual Costiveness, Palpitation of the Heart, Headache, Piles, Nervousness and General Prostration of the Nervous System,** no medicine has ever given such perfect satisfaction as the VEGETINE. It purifies the blood, cleanses all of the organs, and possesses a controlling power over the nervous system.

The remarkable cures effected by VEGETINE have induced many physicians and apothecaries whom we know to prescribe and use it in their own families.

In fact, VEGETINE is the best remedy yet discovered for the above diseases, and is the only reliable **BLOOD PURIFIER** yet placed before the public.

PREPARED BY

H. R. Stevens, BOSTON, MASS.

What is VEGETINE?—It is a compound, extracted from barks, roots and herbs. It is Nature's Remedy. It is perfectly harmless from any bad effect upon the system. It is nourishing and strengthening. It acts directly upon the blood. It quiets the nervous system. It gives you good, sweet sleep at night. It is a great panacea for our aged fathers and mothers; for it gives them strength, quiets their nerves, and gives them nature's sweet sleep,—as has been proved by many an aged person. It is the great blood purifier. It is a soothing remedy for our children. It has relieved and cured thousands. It is very pleasant to take: every child likes it. It relieves and cures all diseases originating from impure blood. Try the VEGETINE. Give it a fair trial for your complaints; then you will say to your friend, neighbor and acquaintance, "Try it: it has cured me."

VEGETINE for the complaints for which it is recommended, is having a larger sale throughout the United States than any other one medicine. Why? **Vegetine will cure these complaints.**

Valuable Information.

BOSTON, Dec. 12, 1869.

Gentlemen—My only object in giving you this testimonial is to spread valuable information. Having been badly afflicted with Salt Rheum, and the whole surface of my skin being covered with pimples and eruptions, many of which caused me great pain and annoyance, and knowing it to be a blood disease, I took many of the advertised preparations, among which was any quantity of Sarsaparilla, without obtaining any benefit until I commenced taking the VEGETINE, and before I had completed the first bottle I saw that I had got the right medicine. Consequently, I followed on with it until I had taken seven bottles, when I was pronounced a well man, and my skin is smooth and entirely free from pimples and eruptions. I have never enjoyed so good health before, and I attribute it all to the use of VEGETINE. To benefit those afflicted with Rheumatism, I will make mention also of the VEGETINE's wonderful power of curing me of this acute complaint, of which I have suffered so intensely.

FRIDAY, JULY 28, 1876.

GENERAL NEWS.

FROM NEW YORK.

NEW YORK AND BROOKLYN POLICE WAR.

Quarrel over Garbage in the Harbor.—New Yorkers Arrested and sent to Jail.

NEW YORK, July 27.

Several scows laden with garbage from this city were found yesterday afternoon emptying their contents in the bay off Coney Island. Shore Inspector Ferguson, with the quarantine steamer, on which were some

Forty Brooklyn Police,

arrested the captain, crew and two New York policemen on a towboat which was in the employ of New York police, and which boat was towing the garbage scows.

These were arrested and taken to the landing at Fort Hamilton, under a warrant of Judge Church. Two New York police commissioners and a New York police captain were on hand with the police boat Seneca, and they had

A Loaded Howitzer

on the bow of the tugboat, beside some twenty regular police. At one time the howitzer was trained on the Brooklyn officers, but was fortunately not fired. The officers of the tugboat and two policemen were held by Judge Church to answer today for

Violation of the State

law prohibiting the dumping of dead animals and garbage, within certain limits, in the bay. They were remanded to jail.

There is great excitement over this matter in Brooklyn and along the Long Island shore, as every tide brings to the bathing places and beaches the rolling

Carcasses of Cats and Dogs,

and all sorts of putrifying vegetable matter from the streets of New York city. The action taken was initiated by the quarantine commissioners, who are charged under the law with the conservation of the general health of the state in the port of New York.

FATAL FIRE IN A MILL.

A Shocking Affair.

A Philadelphia despatch gives a thrilling account of a terrible shoddy-mill fire there yesterday, in which two persons were burned to death and one was fatally injured. There were

No Fire Escapes

provided from the building, which was soaked with oil and stored with rags. In the sight of 2000 agonized spectators two helpless women were burned to a cinder.

One of the lost, Mrs. Weaver, proved herself a heroine, but lost her life in her attempts to save her companions. She could have easily made her escape, but she knew that several of her companions were at work in the upper stories. Although almost

Suffocated by the Smoke,

she rushed up to the third story and gave the alarm, and then hurried to the fourth, where three women were at work.

There she waited until the room was cleared, but when she turned to go back it was too late—

The Stairs had Fallen,

and she was imprisoned in the burning building. She ran to a window for air, and, encouraged by the shouts of the crowd below, threw herself out. She was unconscious when she struck the pavement, and an ambulance arrived in time only to carry her dead body to her poor little home.

THURLOW WEED ON FINANCE.

THE CUSTER MONUMENT FUND.

Indian War Prospects.

Thurlow Weed is out this morning in a long letter, arguing that

Silver is Lawful Money,

and that gold and silver coin have been declared a legal tender by the constitution. The promise of Congress was to pay United States bonds

In Coin,

and the creditors demand for gold is unjust.

The Herald fund has increased to $4000 for a monument to the gallant officers and men of the Seventh Cavalry who

Rode to Death,

with Custer at their head, in the fight on the Little Big Horn.

The latest advices from General Crook's camp indicate that the Indians have determined on giving the troops battle in force once more. They have withdrawn from before the camp, and are believed to be hiding their families

In the Fastnesses

of the mountains, and in every way providing for a stubborn fight, with the possibility of getting away in case retreat becomes necessary.

ACCIDENT TO STEAMER PLYMOUTH ROCK.

A Man and Woman Drowned.

The steamer Plymouth Rock went ashore on Rockaway last night, with 2000 excursionists on board. A man and woman were drowned in the confusion.

FROM WASHINGTON.

GEN. GRANT'S LETTER ABSTRACTED.

SECRETARY ROBESON TO BE SUED, AND NOT IMPEACHED.

Bluford Wilson in a Curious Position.

WASHINGTON, July 27.

It having been stated by the detective Varyan that the direction of Gen. Grant to let no guilty man escape was virtually forced from him by Bluford Wilson, Gen. Grant has been anxious to have the letter found, as he was confident that the text would show the contrary. Bluford Wilson asserted that he filed the letter, and that it had been abstracted from the files. It was ascertained that before leaving the solicitor's office Wilson had a number of confidential documents copied, and that these copies were also missing. Wilson left three boxes at his office directed to himself, and as it was supposed that the missing papers might be in them, he was notified to be present when they were opened to see what they contained. The boxes were accordingly opened this morning in Wilson's presence, and among other papers belonging to the treasury department was the missing letter of Gen. Grant containing the declaration, "Let no guilty man escape." Wilson's only attempt at explanation was that it got there by accident.

The Washington Monument.

The House passed the Senate bill for the completion of the Washington monument, with an amendment continuing the present officers of the society and permitting them to receive contributions.

The Death of Senator Caperton.

The House then received a message from the Senate, announcing the death of Senator Caperton and adjourned.

Proposed Suit Against Secretary Robeson.

The House Committee on Expenditures in the Navy Department has adopted a report on the Wheelwright & Tilton case, in which they censure Secretary Robeson severely for having permitted this and other surplus payments of public money, and recommend that suits be commenced against him for all moneys thus paid.

The Whiskey Frauds.

Bluford Wilson is to be examined by the Whiskey Committee this afternoon. A number of original telegrams concerning whiskey seizures, which belonged on the files of the Department, were found in Wilson's boxes.

The Financial Snarl.

The Committee on Banking and Currency endeavored to meet this morning, but Mr. Cox was absent and they gave it up.

Repeal of the Date for Resumption.

After a long quarrel in caucus tonight, the democrats adopted a resolution repealing the resumption clause by 46 to 24. There was not a large attendance and a number of hard money men say they will not be bound by this action. An attempt was made by Mr. Holman to have the whole act repealed, but it was decided that action must conform to the St. Louis platform.

A brief discussion in regard to adjournment did not create the impression that an early adjournment was possible.

Limiting the Trade Dollar.

Acting under the provision of the silver bill repealing the legal tender of the trade dollar, and authorizing the Secretary of the Treasury to limit the coinage thereon to actual export demand, and there being no export demand for that coin from the Atlantic cities, Secretary Morrill has directed that no deposits for these coins be received till further advices from the Philadelphia mint. The same directions were given the Carson City mint and the San Francisco mint has been authorized to coin an amount sufficient to meet the actual export demand, these coins being required for export to China and Japan only. Otherwise the mint will be run to their full capacity on subsidiary coin and the necessary gold coinage.

Troops for Hamburg.

Telegraphic instructions were sent the 23d inst., to the commanding officer at Columbus, S. C., ordering the commanding officer of the United States troops at Aiken, S. C., to detail an officers and picket guard of twelve men for duty at Hamburg, S. C.

MISCELLANEOUS.

THE INDIAN WAR.

NEWS FROM GENERAL CROOK.

Another Battle Anticipated.

A VIGOROUS ADVANCE PROMISED.

VIA FORT FETTERMAN, July 26.

The Sioux have made no demonstrations for more than a week. The smoke has cleared from the surface of the country, and, while no scouting is carried on, from desultory observations reported it is to be feared that the Sioux are

Preparing a Refuge

for their families in the mountains, which are capable of strong defence. They are expected to give general battle once more.

Couriers from Terry.

Two Crows arrived two days ago from General Terry with duplicate of despatch already received, detailing the Custer disaster. They saw no Sioux, but observed the trail of a large party going toward the Red Cloud Agency. It is supposed they are carrying their wounded thither. The Crows report finding the burial places of many of their dead scattered along the route of their flight.

The Fifth Cavalry

left for Laramie on the 15th, and their arrival is expected on the 27th. An advance will then be made. Meantime General Terry is supposed to be already moving toward this command.

Men and Supplies.

A courier was despatched toward him on the 20th. The Crows reported the arrival at his base of supplies of two steamboats loaded with men and horses.

CHEYENNE, W. T., July 26.

Advices from General Crook's command in camp on the south fork of Tongue River, dated July 23, via Fort Fetterman, July 26, are of importance. The main body of the Sioux are believed to have taken to the Big Horn Mountains, where game is more abundant and the grass fresher. The efforts of the Indians to burn the grass in the valleys makes it almost imperative on General Crook to follow them up at once.

BY CABLE.

TURKEY AND HER WAR.

PAPER MONEY TO BE ISSUED.

Reported Repulse of the Turks.

LONDON, July 27.

A dispatch from Constantinople says it is stated that the government has decided to issue paper currency to the amount of three million Turkish pounds.

A Reported Turkish Reverse.

RAGUSA, July 27.

Intelligence from Sclavonic sources announces that 15,000 Turks, under Mehmet Hamdi Pasha, attacked the Montenegrins on Tuesday near Podgoritza. They were repulsed and pursued to Podgoritza. Both sides lost heavily in killed and wounded.

Montenegrin Movements.

LONDON, July 27.

Correspondents conclude the Montenegrins are withdrawing from Mostar to cooperate with the Servians.

German Preparations.

A Berlin special says preparations are making to mobilize the whole army.

Roumania's Demands.

A Vienna special says it is said the Turkish Ambassador there has confidently stated that the Porte declares that some of the most important of Roumania's demands are inadmissable. He refuses to discuss the session of the mouth of the Danube, as that question equally concerns other powers.

RAILROAD ACCIDENT IN ENGLAND.

THE "FLYING DUTCHMAN" WRECKED.

Two Persons Killed.

LONDON, July, 27.

The Pall Mall Gazette's dispatch from Bristol, says the Flying Dutchman, a fast train, running at full speed between Taunton and Bristol, left the track near Longaston. The engineer and firemen are killed, and it is feared a number of passengers are also killed. The train was wrecked.

Not so Bad as at First Reported.

The accounts of the accident to the train, Flying Dutchman, are greatly exaggerated. When the engine left the track the couplings broke. The train is comparatively uninjured, the engine alone being wrecked. The engineer and stoker were killed, but the passengers were unhurt.

It is unfortunate for the reformer, Tilden, that he should have sent circulars all over his state, in 1868, asking estimates of democratic gains and losses to be forwarded to Hon. Wm. Tweed, as soon as the polls closed. Was it to find just how much ballot box stuffing would be required in the city, to counteract the honest vote of the state?

There are 72 newspapers published at Constantinople, 16 of which are published in Turkey, 1 in Arabic, 1 in Persian; 20 in French, 1 in German, 1 in English, 12 in Greek, 1 in Armenian, 4 in Bulgarian, 2 in Spanish and 1 in Italian. There are 15 official journals in the provinces and as many official calendars or almanacs.

BUSINESS NOTICES.

A writer in one of our standard medical journals says: "I was cured of Dropsy in one month by using HUNT'S REMEDY." All Diseases of the Kidneys, Bladder and Urinary Organ, are cured by HUNT'S REMEDY.
jy26 n&j-1w

WHAT CAN BE CURED

Need not be endured, although what can't must be. Among the bodily ills susceptible of complete removal by that benign tonic and alterative, Hostetter's Stomach Bitters, are general debility, malarial fevers, constipation, dyspepsia, liver disorder, and nervousness. Its remedial capabilities are, however, by no means limited to these maladies. Its properties as a blood depurent render it extremely serviceable in expelling the acrid impurities which produce those painful disorders, rheumatism and gout, and its invigorating and mildly stimulating effect upon the kidneys and bladder constitute it a useful medicine for impelling those organs to a complete performance of their functions when they are weak and inactive. In fact, there is scarcely any disease of which weakness is an accompaniment, which this admirable medicine cannot be used with advantage.

TO PHYSICIANS AND INVALIDS.

The flexible, self-applying Electric Disks, Dr. Garratt's invention, make without care or trouble, "gentle and prolonged applications" of very fine primary currents. They prove sufficiently active and durable for this peculiar method.

While worn by night or day for cold rheumatic neuralgia, lameness, weakness, or chronic pains, the disk is sure to generate and apply its constant multipolar electric action. Each metal acts as element and pole. They are wisest avalanche for deep polar inworking. As shown by the expert judges, and in practice, these disks excel all other attempts at this sort of appliance. Nothing like them. Large disk, $2.50. Children's $1. Other sizes. THE DAY.

Saratoga is preparing for her centennial which occurs next year.

Admiral Alden, Ex-Gov. Bowie of Maryland, Col. Harlan of Cincinnati; Rev. J. D. Fulton and the Dean of Edinburgh are at Saratoga.

The Fall River mills have announced a further reduction of ten per cent. in the wages of operators, to go into effect during the month of August.

The sum of $2400 was received yesterday, in this city, for liquor licenses. A business that can pay so heavy a tribute to Cæsar must have millions in it somewhere.

The city of Providence has more of a fellow feeling for the heathen than is exhibited in Newport. Seven Chinese laundries flourish there, while the one attempted here proved a failure for want of customers.

The news from the New Bedford whaling fleet is unfavorable. One vessel the bark, Illinois, has been lost, and most of the others have secured little or no oil. Those whales are getting to be artful dodgers.

The Newport Journal, published this evening, contains a full report of the local news of the week, and will be found a valuable number for the family or to send abroad. It may be obtained at this office and at the news rooms.

Captain Rowland of the ill-fated Mohawk has been released on $2000 bail. Two of the friends of the late Commodore Gardner are his bondsmen. There is no probability that the captain will ever be brought to trial.

The hard times are affecting all classes in England as well as in our own country. Most of the cotton mills have decided to shut down two days in the week for the purpose of lessening production. In the old world as well as in the new the markets are over supplied.

In speaking of the Portsmouth outrage and the failure of the friends of Clark Chase to compromise his offences the Fall River News charitably says "It is a great misfortune to find a venerable citizen in trouble for abnormal conduct, and it is charitably hoped that much, if not all, that is wrong in his conduct may be proved to result from advanced age, bodily infirmity, or aberration of mind." We should like to entertain the same view, but the fact that these offences have extended through ten long years is in the way. It seems to us the best illustration of total depravity which we have ever met.

The minority report of the naval affairs committee on the charges against Secretary Robeson has been presented to the house. The position assumed by the majority is severely criticised, the minority declaring that the evidence fails to show that the secretary "has been guilty of any official misconduct or corruption, or any willful violation of law." The facts on which the reports are based are such that Robeson's accusers do not care to proceed with their proposed impeachment. A clearer case of maliciousness is not upon record than is found in the history of this investigation.

In looking over the audience at the high school yesterday, one could not but be struck with the small number of gentlemen present. Possibly it was from a want of interest on their part. But from the known inability of most men to leave their business at mid-day, it might be worth the while to have the public exercises at some hour convenient for their attendance. The evening would certainly accommodate them better. The programme would necessarily be shorter than that of yesterday if the change were made, but that certainly would not be an occasion of regret.

THE COAL MONOPOLY.

"The managers of the coal monopoly held a meeting Monday and resolved to keep up the combination, and that the Lehigh Valley road should stop carrying for two weeks in August to regulate the excess of coal, some 80,000 tons, which they have forwarded this season. This is one of the most outrageous monopolies in the country—a genuine conspiracy against all consumers of coal in the country, and everybody would rejoice to see it come to grief."

The New Bedford Standard, from which we clip the above, is certainly mistaken in the concluding sentence. Instead of its being true that "everybody" is against this monopoly it is a well known fact that congress puts a tariff on coal for no other reason than to help it along. Every family in the country pays a dollar or two extra on each ton consumed, through this act of congress, for the special benefit of the monopoly complained of. And yet we must not say a word against the tariff which is wholly in the interest of monopolies, and which alone, in this country, makes them possible.

THE LATIN SALUTATORY.

We notice that the Latin salutatory finds a place in the programme of exercises at the anniversary of Rogers High school. One ignorant of the custom of such occasions might wonder why formal salutations should be necessary, and why, if necessary, they should be pronounced in a language quite unfamiliar to those addressed. It is somewhat amusing at such a time to watch the audience. The programme says salutatory addresses. The speaker stands before them, bowing now this way and now that, gesticulating a very generous welcome, and repeating in declamatory, or anon in very confidential tones, something which is to them altogether unintelligible. They have a suspicion from the orator's tones, looks and gestures, that at one stage of the proceeding, he is particularly addressing them. They seem to get now and then the slightest shadow of the faintest conception of what is said, and look smilingly intelligent over it, but feel some hesitancy at showing too great appreciation lest it may be ill-timed, especially in the presence of the knowing looks of the gentleman who sits just across the way, who, if they but knew it, hasn't looked at a Latin book in twenty years, and when he did, while in college, had the reputation of never knowing much about it. To most of the audience it would seem absurd to be brought together to be thus welcomed, did not the custom have the sanction of men whom they know to be wise and learned. As it is, they cherish the lurking suspicion of its absurdity, without venturing its expression, look hesitatingly approving and intelligent all the while, and applaud with relief when the performance is all over. Very few salutatorians would like to deliver their addresses in English. And it is, perhaps, kind to them that they are permitted to conceal the insipidity of the performance in the graceful Latin tongue.

Time was when the programme of a college exhibition was well sprinkled with exercises in various languages. That day is passing, if not past. In many institutions such exercises on public days are abolished, in recognition of the fact, we presume, that they have grown to be meaningless, and that to the temper of the present age they seem somewhat pedantic. Given up by the college, it is to be presumed that little reason or even excuse will be found for their retention by the seminary and high school.

A MODEL LETTER.

To the Members of the Newport band:

GENTLEMEN.—In common with my neighbor I recently contributed on the application of your representative a small sum to the subscription being raised towards meeting the necessary expenses of your organization. I mention this fact merely as a reason for the liberty which I take in offering for your consideration a few suggestions which I trust will be accepted in the spirit in which they are intended.

Being an ardent lover of music and believing, as I do, in the advantage to public taste as well as to public morals to be derived from frequent opportunities of hearing a superior class of public performance, I have watched with great interest, since I became a resident of this city, the progress of your band and I take great pleasure in saying that I have noticed from time to time a steady improvement both in the character of the music and in the excellence of its execution. Especially does this seem to me to be true since the recent consolidation of the two bands and the assumption of his position by your new leader.

There is a very common, but, as I think, very mistaken impression that it is necessary, in order to please the masses, to select an inferior class of music, "popular airs", so called. The result of my own observations, and it has been somewhat extended both in this and other countries, has been to convince me that there is an intuitive appreciation of the best music in the uneducated ear of the masses, which needs only frequent opportunities for its enjoyment to develop a positive preference for it.

I have spoken of the influence of music upon public morals. There can be no question but that the nature of that influence depends upon the character of the music performed. The higher the standard maintained, the more refining will be its influence and more beneficial its results. While commonplace airs, with which there might be more or less vulgar associations, would tend to boisterous and perhaps indecorous outbursts, music equal in excellence to what is known as classical, would appeal to a different set of feelings and instead of developing rowdyism would have, to a certain extent, the opposite tendency.

Inasmuch as you propose in the future to give occasional public performances and thereby to become public educators I have felt it to be of sufficient importance, in view of the opinions which I have above expressed, to urge upon you to select for these performances none but the highest pieces. Aside from any considerations of public duty in the matter, I feel that not only the reputation but the pecuniary interests of your band would be best served by the adoption of the course which I have suggested. Persons of means, to whom you appeal for subscription, would be quick to detect the choice of superior music on your part as well as to take notice of excellence and precision in its execution and would the more readily respond to your requests, while at the same time you would have the satisfaction of feeling that you had contributed towards the elevating of public taste and improvement of public morals.

LOCAL AFFAIRS.

—The schooner yacht Josephine arrived here yesterday.

—Signs of a large fire were seen near Narragansett Pier last evening.

—The brig Matilda will discharge her cargo of lumber on board the schooner Peace Dale. It will then be taken to New York.

—R. E. Garczynski, better known as "Gar," the efficient and widely known correspondent of the New York Times, is at the Ocean House for a few days.

—The new uniforms for the Newport base ball club were received this morning. They consist of blue stockings, white pantaloons with blue trimmings, white caps and blue shirts with "Newport" lettered on the front.

—We published a paragraph, recently, about John Kelley, who was accused of wife beating. It now appears that the charge was considerably exaggerated, and the complaint has been withdrawn. His employer, Col. Winthrop, vouches for him as a sober and industrious man.

—Yesterday afternoon a horse belonging to W. H. Bateman was standing on Corne street near the side entrance of the Aquidneck house when a paper, dropped from an upper window, frightened the animal. He got beyond the control of the man who was holding him and ran for his stable on Mill street. On the way the carriage struck a post, damaging the vehicle quite badly and cutting the horse severely.

—We have to note the arrival in Newport, of a distinguished musician, a gentleman famous as a composer, and known also as one of the most successful vocal teachers resident in New York. We allude to Mr. Ranieri Vilanova, who is now at the Aquidneck, with the intention of staying in Newport for the rest of the summer. If we desired to enact the part of Jenkins we might give the names of several of our permanent residents who are indebted to Mr. Vilanova for all the knowledge they possess of the higher branches of music. It is more than probable, however, that Mr. Vilanova may give evidence of his ability as a pianist in a *soirée musicale* or two, next month at one of the cottages.

REUNION.—The teachers and graduates of the Rogers High school enjoyed a very pleasant reunion at the residence of F. W. Tilton, the head master, last evening. Since the school opened thirty gentlemen and ladies have graduated at this institution, most of whom were present on this occasion. Music was furnished by Mr. Marshall's orchestra and the occasion was altogether of an enjoyable character.

ALMOST A FIRE.—About 9 o'clock this morning fire was discovered in the dry grass on the lawn of Mr. Theodore Phinney on Carroll avenue. The flames had nearly reached the lattice and was likely to have destroyed the house but for the timely arrival of Daniel T. Sherman and Morgan Barry who rendered efficient service in preventing a conflagration. The premises are unoccupied.

THE OLD STONE MILL.—A couple of antiquarians who have just studied up the the old stone mill question give it as their opinion that it was built by the freemasons of early date. One reason assigned is that the windows are in the east, south and west, with none in the north side of the structure. They judge that it was a masonic temple built by the Norsemen and with the symbolic seven pillars. They also suggest other reasons which the initiated can appreciate, but which would not be intelligible to the outside world.

SUICIDE.

William McKowen, a highly respectable citizen doing business on the corner of Bowery and Spring streets, committed suicide yesterday afternoon immediately after eating his dinner. For the past two weeks he has shown unmistakable signs of insanity and was strongly in the belief that he was coming to want and would be obliged to go to the poorhouse. He lived with his brother's widow, whose family he provided for, his brother being formerly in business with him.

McKowen shot himself with a six-barrelled Colt's cavalry pistol, placing this ugly implement of death in his mouth before firing. Mrs. McKowen, his sister-in-law states that she heard a loud noise and upon going up stairs, found the unfortunate man with his feet on the floor and his head resting on the pillow, having fired while seated on the bed and falling over afterwards.

Coroner James G. Topham was notified and promptly held an inquest, the following gentlemen serving as jurors; C. H. Hammett, W. O. Greene, C. Sherman, W. B. Denham, Wm. H. Cranston and Harwood E. Read. After hearing the testimony they rendered a verdict in accordance with the above facts.

Further developments show that the deceased had before attempted to hang himself in the back yard. He tied a piece of rope around his neck and, after tying it to the piazza, kicked the chair out from under him, but the rope being rotten it broke. He was of the opinion that his sister-in-law had cut the rope. The lady, however, did not believe him when he told her what he had done. Deceased was 67 years of age. He was a sober, industrious citizen, respected by everybody.

It is reported that of late he has lost a good deal of money and that he had funds on deposit with Patrick Donahue of the Boston Pilot, when that gentleman recently failed.

POLLY LAWTON'S PICTURE.

The Redwood library has just received an interesting donation to its picture gallery. George P. Lawton, Esq., a lawyer of Troy, N. Y., has caused to be painted an oil copy of the original portrait of the famous belle of Revolutionary Days, Polly Lawton, who is so eloquently commemorated by the French officers stationed here during the Revolution. It is the portrait of a sweet, demure Quaker beauty, wearing on her lips the quiet smile with which she reproved the Count de Segur for the "cruel occupation" of the war. And we may still see in the picture the traits the Segur's Memoires thus describe:

"So much beauty, so much grace, so much simplicity and modesty combined, was not often seen in the same person. It was Polly Lawton, the daughter of my grave host. Her gown was white, like herself, while her simple muslin kerchief, and the envious gauze of her cap, which scarcely allowed me to see her light hair, and her modest attire of a pious virgin, seemed vainly to endeavor to conceal the most graceful figure and the most beautiful face imaginable."

AMATEUR RIFLE MATCH.

An interesting competition for an Allen rifle took place at Southwick's Grove yesterday afternoon at 100 and 200 yards. Creedmore rules, (with the exception of the one ~~governing~~ ties,) and target five shots at each range. Each contestant using same rifle. The following is the official score:

THE GREAT YACHT RACE.

The great yacht race from New York around Brenton's Reef lightship and return comes off today. It will be remembered that the English have sent over their fastest sailer the Countess of Dufferin in the hope of winning back the honors that were taken from that country years ago, and which they have never been able to recover.

From present appearances she is likely to go home as empty handed as she came, as it will be seen that three of our yachts lead her at the middle of the race. The official time, as taken at the lightship, is as follows:—

	H.	M.	S.

ROGERS HIGH SCHOOL.

The anniversary exercises of this school were held yesterday. The examinations of certain classes occupied the first two hours of the morning. At eleven o'clock the chapel and the adjoining recitation room were filled by the friends and members of the school, who were assembled to hear and witness the graduating exercises.

The programme of essays by members of the graduating class was as follows:

Latin Salutatory,
Fred Mason Hammett.
Indirect Sources of History,
Kate Sterne.
Methods of Raising Water,
George Augustus Saunders.
Woman's Place in Science,
Ella Vernon Gilman.
Wealth, an Armor,
Lydia Lawton Langley.
Practical Applications of Electricity,
George Cole Stevens.
Education,
Frank Townsend Southwick.
Cumulative Power of Study,
Abbie Taggart Swan.
January 14th—21st, 1793,
Henry Tisdale Coggeshall.
Exaggeration,
William Vernon Olyphant.
Conversation, with the Valedictory,
Corabelle Hall.

Of these, Mr. Coggeshall and Miss Langley were excused from reading their essays.

The salutatory addresses in Latin were well delivered by Mr. Hammett.

Miss Sterne spoke of the value of language as a source of history, and also showed how excavations have contributed to our historical knowledge.

Mr. Saunders traced the probable course of improvement in the methods of raising water, showing by a diagram on the blackboard, how water by an ingenious, yet simple, contrivance may be its own elevator.

Miss Gilman's essay was a sensible statement and consideration of the objections to woman's participating in the conflicts and triumphs of scientific study and investigation. Mr. Stevens discussed the ways in which electricity has been utilized—speaking particularly of electro-typing, electro-plating and the electric telegraph. He forgot to mention and to illustrate the fact that speakers may *electrify* their hearers.

Mr. Southwick made a plea for education by satirizing quite successfully that class of individuals who undervalue it. The value of study in increasing mental power was well treated by Miss Swan.

Mr. Olyphant briefly and sensibly discussed exaggeration, both in its aspects as a national peculiarity, and as a characteristic of our common humanity.

Conversation, its character, its defects, its value, furnished the theme for a well written essay by Miss Hall. The valedictory addresses, also given by her, were brief, simple and appropriate.

We were struck with the simplicity and unaffectedness in point of style of all the essays. There was little attempt at fine writing, so-called, a thing which used, at least, to be so common at the anniversary exercises of our schools and seminaries. We presume that the exercises were not an exhibition, as that term has come to be understood; but, judging from the topics of some of the essays and the way in which black-board illustration was used by some, we infer, rather, that it was designed to show, so far as possible on such an occasion, the work actually done in the schools and its results. In addition to the exercises already spoken of, there were readings of selections by Misses Coggeshall, Hammond, Salome and Perry, and a declamation by Master Parmenter, all of lower classes of the school, and the rendering of a dialogue in French by Misses Hall, Lawton and Hammond and Masters Wood, Stevens and Parmenter. The reading by Miss Hammond was natural and spirited.

After the delivering of the valedictory, Mr. Tilton announced that the Norman medals for scholarship had been awarded to Miss Hall and Miss Langley of the graduating class, and the Read medal for moral influence to Mr. Hammett of the same class.

Col. Higginson, speaking briefly in a pleasant and happy vein, handed them to the recipients.

The diplomas were then presented to the graduates by Dr. Thayer in a few earnest and well timed remarks.

The exercises were interspersed with music by the school, assisted by an orchestra, under the direction of Mr. W. F. Marshall. The musical programme was as follows:

Concert Overture,..........*Kuffner.*
Hymn for mixed voices,..........*Rossini.*
Chorus—So Merrily over the Ocean Spray,..........*Richards.*
Trio—Now the Evening Hour,..........*Flotow.*
Chorus—Skating song.
Flute Solo—vivi Tee,..........*Donizetti.*
Chorus—How Gently, How Calmly,..........*Nycett.*
Chorus—The Love of God,..........*Naegeli.*
Chorus—Friends Must part,..........*Marks.*
Chorus—Lord Dismiss Us,..........*Bishop.*
Andantee and Minuet,..........*Hadyn.*

The singing was a pleasant feature of the occasion.

The Holloway College for women, in England, is rapidly approaching completion. The total amount given is about $1,750,000, and this is to be devoted to educating unmarried women over seventeen years of age so as to qualify them to pass the entrance examination of the universities. The study of the classics will be optional. There will be no religious test, and no student will be obliged to attend any religious teaching that may be given. Four years' residence will be the limit, except in special cases, and the twenty scholarships of $200 each will not be tenable for more than two years. At each annual examination four founder's gifts of $250 each will be awarded. Mr. Holloway intends, of course, that the college shall have the best teaching power which can be obtained, and consequently most of the professors will be of the male sex, at least to begin with. But it is specially provided that no male person shall reside within the college or on any part of the estate belonging to it; and, to make this rule all the stricter, the lady superintendent and all women employed in household work must be unmarried.

The Rhode Island Historical Society, on the 12th of August, intend to observe the 200th anniversary of the death of King Philip—Metacomet—at Mount Hope by planting a tree on its summit, which will answer for a centennial and bi-centennial at the same time. As this event happened the 12th of August old style, it really throws the date under the present style, Aug. 22d, when it is proposed to have a concluding "jamboree," in the shape of a picnic on the very ground that witnessed the betrayal and death of the veteran warrior of New England primeval history.

Schurz has gained something by coming out for Hayes and Wheeler. Tommy Nast won't caricature his legs any more.

"You are a nuisance. I'll commit you;" said an offended judge to a noisy person in court. "You have no right to commit a nuisance," said the offender.

Hendricks was one of the few United States Senators who voted against the fourteenth and fifteenth amendments—the amendments establishing the civil rights of all citizens, the validity of the national debt, and forbidding the payment of the rebel debt.

DEATH OF MRS. AMY R. ARNOLD. RESULTS OF A POST MORTEM EXAMINATION.

Mrs. Amy R. Arnold, wife of Mr. Joseph F. Arnold, died suddenly at their residence, corner of North Main and Olney streets, between 1 and 2 o'clock on Sunday night. She had been drinking a great deal the previous day, and on Saturday afternoon had been quite sick from the effects of liquor. The husband had also been under the influence of liquor during the day and night, but awakened at about midnight and found it impossible to arouse his wife from her slumbers. He woke up his son-in-law, Lewis C. DeWolf, who lives in the adjoining house, who told him to go for Dr. Peckham. He did so, but was unable to find him, owing to his confused condition, and DeWolf, who had gone to his mother's bedside, then went and brought him. Mrs. Arnold died shortly after his arrival. Monday night complaint was made by Mr. Arnold that DeWolf had administered a full bottle of chloral to his mother, and a post mortem examination was ordered by Coroner Wightman, which was made yesterday forenoon by Dr. W. H. Palmer, city physician.

The result showed that while the death of Mrs. Arnold might have been caused by an overdose of chloral, that the effects of intemperance and organic disease might also have caused it, and an inquest was not considered necessary. The funeral took place at two o'clock, yesterday afternoon. Mr. DeWolf, who was detained by the police until the result of the post mortem was made known was discharged.

Mrs. Arnold was the daughter of Mrs. Kate Williams, well known in this city a number of years ago for her authorship and eccentricities and was in the fifty second year of her age. Mr. Arnold was her fourth husband and they had been living for the past year in Scituate, having returned to this city about a week ago. She had been given to dissipation and had been occasionally before the courts for drunkenness. She was also of eccentric and restless disposition and was at times thought to be slightly deranged. She enjoyed an income from considerable real estate, including the New England House on North Main street, inherited from her mother, and her husband, who is a carpenter by trade, did little or nothing.

Mrs. Kate Williams, the mother of Mrs. Arnold, was well known as the authoress of "Religion at Home," and several other works from which she realized a large fortune. She left her daughter, Amy, the income of a very valuable estate on North Maine street in Providence, and which, of course lapses now, on her death, and goes to Silas C. DeWolf, who was her favorite adopted son, and to whom she left all she had, with the above exception. DeWolf is said to be the natural son of the deceased but of that there is no evidence.

One thing is sure, that she left DeWolf all her property, and what she gave the deceased, was his upon the contingency of her death.

Mrs. Arnold, the deceased, lived at one time in the "Cobleigh House," on Warner street, and will be remembered by many as "eccentric" *at least.*

The Countess of Dufferin, the Canadian yacht which is now in these waters for the purpose of carrying back as a testimony of her prowess the America's plate and the championship, gave an exhibition of her speed in the race for the Bennett challenge cup yesterday. On the home stretch she was led by the Tidal Wave and two others of the contesting yachts.

Governor Hendricks tells the members of his party in Congress that in order to elect the democratic ticket in Indiana it will be necessary to repeal the specie resumption act in some form.

At a conference of soft-money men in New Haven, Conn., it was decided that unless Tilden's letter of acceptance favors the principles of the *greenback* party an active greenback campaign should be entered upon in that state.

A large bankrupt sale of clothing is advertised in another column.

The library interest in this country is becoming so large, and questions of administration and economy so numerous and important, that it has been decided to hold a general conference of librarians and others interested in bibliography at Philadelphia in October next. The meeting will be held at the rooms of the Pennsylvania Historical society, and a permanent organization on the basis of a community of interests will undoubtedly be formed. The conference has the approval of most of the leading librarians of the county.

"CARPET-BAGGERS."—We hope this word will pass out of the literature of our politics. It is a reproach to every emigrant to the South, and has done the South infinite harm. One of the Southern papers says that the gentlemen of the South do not object to Northerners coming in with their brawn and muscle; that they will welcome them, provided they do not interfere in politics. Why should this restriction be imposed? If a republican goes to Illinois he can vote as he pleases, run for office if he pleases, and no one will rebuke him. Why should he not have the same right in South Carolina?—[Herald.

It is as certain that from one to three months exercise on the health-lift, with a proper amount and quality of food, will cure dyspepsia, indigestion and the whole train of attendant symptoms, as that all the bitters—compounds of poor aloes and worse whiskey—boluses and "blue-mass" will fail to do more than afford a temporary and deceptive alleviation.

THE AMERICAN PEOPLE.

No people in the world suffer as much with Dyspepsia as Americans. Although years of experience in medicine had failed to accomplish a certain and sure remedy for this disease and its effects, such as Sour Stomach, Heart-burn, Water-brash, Sick Headache, Costiveness, palpitation of the Heart, Liver Complaint, coming up of food, low spirits, general debility, etc., yet since the introduction of GREEN'S AUGUST FLOWER we believe there is no case of Dyspepsia that cannot be immediately relieved. 30,000 dozen sold last year without one case of failure reported. Go to your druggist, James H. Taylor, and get a Sample Bottle for ten cents and try it. Two doses will relieve you. Regular size 75 cents.

BANKRUPT! BANKRUPT!! BANKRUPT!!!
ASSIGNEES SALE OF $35,000 WORTH OF

READY-MADE CLOTHING

The above being the balance of stock from one of the largest manufacturers in Boston, and lately gone in bankruptcy, the assignees appointed to settle up the affairs of that firm, have opened out for a grand closing out sale at Newport, R. I. The stock is manufactured of strictly first-class material, and for workmanship can't be excelled. Never in the history of Newport has there been such an opportunity to replenish the wardrobe of her citizens at such prices as will be offered at this sale. The stock must be closed out and will be sold at any price. During the short period of six weeks the assignees have disposed in the cities of Boston, Providence and Hartford alone, over $103,000 worth of this stock. Don't miss this rare chance. It may be only once in a life time that such an opportunity will offer itself to supply yourself and boys with first-class clothing for LITTLE MONEY. $35,000 worth of the best ready-made clothing for men's youth's and boys wear, must be sold within a limited short time. Look to your interest and purchase at this sale. No. 5 Cottrell's Block, Thames street, in store formerly occupied by Adams Express Co., 4th door south of the postoffice.

SPECIAL NOTICE!

July being very warm, temperature playing around the nineties, and as I have always the well wishes of my fellow citizens in view, and want all to enjoy the largest liberty, both temporal and spiritual, I have arranged an entire change of programme, which is as follows:—

I offer for sale the following

CARRIAGES:

1 very nice, new pony phaeton, with canopy, newest style; price $250.
1 nice, new pony phaeton, no canopy, newest style; price $175.
1 top phaeton buggy, new and very nice, eight of same style been sold by me the past year; price $200.
1 new carryall, warranted; price $175.
1 new two-seated wagon; price $155.
1 new Bradley carryall, very nice and also very light, warranted; price $450.
1 new road wagon, warranted; price $150.
2 new box buggies, with tops that take off, warranted; price $200.
1 new jump-seat carryall, very nicely painted and a first rate carriage in every way, warranted; price $260.
1 new carryall, beach wagon style, light, yet strong, warranted; price $250.
2 new express wagons.
1 very nice dog cart, reversible seat, with pole and shafts, cost $700; price $225.
1 nice two-horse Victoria, made to order, cost $800, in good order; price $150.
1 rumble-seat phaeton, with canopy, made to order, cost $450; price $100.
1 low pony phaeton; price $65.
1 Brownell-made carryall, in first rate order, newly painted and varnished; price $125.
1 good carryall; price $100.
1 open buggy, in good order and newly painted; price $55.
1 open buggy, in first rate running order; price $65.
1 top Brewster buggy, in good order, new steel tires and just painted; price $110.
1 top buggy, just painted, in good order; price $75.
4 uncommon express wagons, part new and part old, but very serviceable wagons and cheap, if wanted, as they will be sold less than cost; price $65 each.
1 covered wagon, with side seats, will carry 8 persons, door in hind part of wagon, in good order; price $85.
1 side-seated wagon, with pole, will carry 10 persons; in first rate order; price $100.
1 phaeton top buggy, not a new one, but in very fair order, newly painted; price $55.
1 very nice turn under box top buggy, top takes off, with pole and shafts, cost when new $550; price $250.
1 good road wagon, in first rate order, and just painted, carmine gear; price $90.
1 six-seated rockaway, with pole, in the best of order, not new, but just as good as many of the new ones made now, curtains have inside pads for cold weather and roll up for warm weather; price $160.
2 half-top barouches, in good running order and will earn a good deal of money if bought soon, and the price will be made right to the parties who mean business.
1 extension top carryall, with pole, and very roomy, will carry six persons. Just the carriage for people who prefer comfort to style; price $175.
1 large wagon, will carry 80 persons if necessary, or would make a smaller wagon, as the running gear is first rate. No price affixed but will sell at a loss, as I have no room to store the same and want to sell.
1 jump-seat carryall, in first rate order; newly painted and cheap at $110.
1 phaeton top buggy, in good order; price $105.

I shall be pleased to dispose of the above for cash or approved paper, but don't, my friends, expect to get a new carriage for an old price. All the above carriages that are new will be warranted, as we don't do any jockeying and try to do as we agree.

HOUSE PAINTING

Is dull just now, will take jobs at a very low price and warrant to give satisfaction, both as to labor and material. Would also say that we are still carrying on the

CARRIAGE PAINTING
IN ALL ITS BRANCHES,

and can now give despatch to all carriages entrusted to our care. We also have storage room for carriages, which will be taken at fair rates, and stand in good dry rooms.

Now if my friends, who have been in such a hurry to have their work done the past season—to say nothing of those who have been accommodated several seasons ago—will use the same diligence in settling their accounts, they will very much oblige their humble servant,

Tax Assessors' Notice.

THE ASSESSORS of taxes of the city of Newport, hereby give notice that they will meet and be in session in the common council chamber in the City Hall, in said Newport, every day, (Sundays excepted,) from and including Monday, July 17th, 1876, to and including Saturday, July 29th, 1876, from nine o'clock, A. M., to twelve o'clock, M., and from two o'clock to five o'clock P. M., for the purpose of assessing and apportioning on the inhabitants of said city, and the ratable property therein, the tax ordered and levied by the city council of said city on the 13th day of June, 1876.

Every person and body corporate liable to taxation in the premises, is hereby notified and required to bring in to said assessors, within the time or times, and at the place of the meeting and session of said assessors as above designated, a true and exact account of all his ratable estate, describing and specifying the value of every parcel of his real and personal estate.

The General Statutes of Rhode Island provide that "every person bringing in any such account, shall make oath before some one of the assessors, that the amount by him exhibited contains to the best of his knowledge and belief, a true and full account and valuation of all his ratable estate, **and whoever neglects or refuses to bring in such account, if over taxed shall have no remedy therefor."** Executors, Administrators, Guardians and Trustees are hereby notified that all the foregoing applies to them and to Trust estates as well as to other persons and property.

Sewing Machines.

SINGER.

The fact that THE SALES OF THE SINGER MACHINE ARE MORE THAN THE COMBINED SALES OF ALL OTHERS; and that you seldom if ever, find a second hand SINGER MACHINE for sale, is a stronger argument of its superiority than anything your friends can tell you about a machine that they have, when they know nothing about any other make.

Customers are ALWAYS satisfied with the SINGER which cannot be said of any other machine in the market. MACHINES TO LET.

Geo. A. Pritchard, Agent, 90 Thames St.
jy24

THE SUPERIORITY OF THE

REMINGTON Sewing Machine

is acknowledged by competent judges in the following particulars:

1. It is constructed on the soundest mechanical principles.
2. It is made with the best material by the best workmen.
3. Its wearing surface is more evenly distributed than that of other shuttle machines.
4. It has no harsh jarring motions.
5. It runs much lighter, stiller, and with less wear than other shuttle machines.
6. There is less wear on the needle bar and cam than in other machines.
7. Less motion is given to the shaft, carrying the needle bar and feed than in other machines.
8. The feed is positive, silent and automatic.
9. The length of the stitch is more easily regulated.
10. The needle is more easily threaded. There are no holes for the thread to pass through, but the eye of the needle.
11. There is no wear or strain on the thread to set it firmly in the cloth.
12. It has no objectional levers, no heavy rotary cams, no noisy cog wheels, which are always gumming or breaking.
13. It is so constructed that it can run twice the speed, do double the work and last twice as long as other shuttle machines.

AGRICULTURAL.

FODDER CORN FOR THE DAIRY.

Fodder corn can be put in as late as the twentieth of June and even up to July. Late crops make excellent fall feed for dairy stock when grass begins to fail and deteriorate on account of frost. It is a great saving to the hay crop, and many dairymen are enabled to carry stock along until the middle of January without feeding hay, sole reliance being placed on corn fodder which is properly cured and shocked in the field, whence it is used from week to week, as wanted.

In raising corn fodder, good, rich, mellow soil is required. There is no crop that will bear manuring better than corn; but in late sowings well-decomposed manures, well-incorporated in the soil, are best, unless the weather happens to be moist, as fresh barnyard manures are liable to become dry and of little use.

BRAHMAS AND HOUDANS.—The above named breeds have proved the most profitable to me. Their characteristics are too well known to need description. We usually keep an equal number of light Brahmas and Houdans, and all are pure bred, always breeding from the best, and usually nothing but the best Houdan cocks. We thus obtain two classes of chicks, pure bred Houdans and Brahma-Houdans. The first we esteem most highly for laying, the last for table use, as they are hardy, rapid growers, and grow to a great size, combining the size of the Brahma and the fine, firm texture of the Houdan. The cross thus formed has as good laying qualities as either breed, being for the most part non-setters; but they should in no wise be bred from as their progeny loses the good qualities of the parent stock.—[Cor. Country Gentleman.

POULTRY.—The Poultry World published at Hartford by H. H. Stoddard is one of the best works of the kind. It gives just the information needed by the poultry raiser whether his flock be large or small. To the fancier it is invaluable.

The American Poultry Journal contains also just such information as is needed on this subject. It is too, a monthly and ably conducted in the interest of the specialty to which its pages are devoted. Ward and Darrah are the proprietors at Chicago.

The Poultry Argus from Polo, Ill., and it is quite extensively circulated in the east as well as at the west. Our state poultry society gave it among their premiums at the late fair, thus endorsing it as a standard organ in its peculiar department.

REASONS

WHY YOU SHOULD PREFER TO INSURE

WITH THE OLD

INSURANCE CO. OF NORTH AMERICA

PHILADELPHIA.

1. It is the **Oldest Insurance Company in America,**—having commenced business in 1794—and therefore entitled to your confidence on the score of **Stability.**

2. It has done a **successful business for eighty years,** thereby demonstrating the **ability of its management.**

3. It has uniformly maintained during its long career, the **Highest Reputation for Integrity and Honorable Dealing,** justifying thereby, full faith that your rights will receive fair and liberal protection.

4. It has paid **Losses** in cash, exceeding **Thirty Million Dollars,** without the deduction of a cent, or a day's delay—a sufficient evidence of the **Wealth** of its Resources, as well as disposition to meet promptly all liabilities.

5. It has a **Cash Capital and Surplus** of over **$4,700,000,** securely invested—an ample GUARANTEE AGAINST DISASTER, in the event of unusual and extraordinary losses, which have often swept away companies of limited means.

6. It insures all the better classes of property on **Liberal Terms,** for long or short periods, and settles all honest claims for losses, **Promptly and Equitably,** at the Agency where the Insurance is effected—observing in all its business relations, the **Golden Rule.**

PATENT

PARABOLA

SPECTACLES.

The advantages of the Parabola Glasses over the old form of Spectacles, are a greater density of material, **perfect surfaces, and Parabolic form.** These qualities, united, form the **most perfect of lenses.** In the **perfect transmission of light,** joined to their peculiar form the wearer of the Parabola Spectacles is enabled to prosecute the **most trying labors** of the eye without those distressing results which follow the use of all other glasses. A peculiar and important feature in these Spectacles is witnessed in cases where young persons have been obliged to resort to the use of glasses, from some physical debility having affected temporarily their vision. In such cases the eye soon regains its healthy powers, and the glasses can be laid aside without having had the least tendency to affect the eyes so as to demand their continuous use.

[From Dr. George McClellan, Philadelphia.]

I have recommended the "Parabola Spectacles" to several of my patients, and have received from most of them warm encomiums upon the article. They assert that these glasses do not fatigue the eyes by long use, as is apt to be the case with the double convex Spectacles, while the command of the eyes over the object of vision is much greater. This corresponds with the opinion any optician would form from his knowledge of the principles upon which these glasses are adjusted—so as to converge the rays coming from different quarters to the same focal distance. The eyes can be turned to a considerable extent, therefore, under these glasses, without involving the necessity of moving the head.

IMPROVED

WIND MILL!

ATTENTION is invited to this improved mill, as surpassing all others in Simplicity, Efficiency, Symmetry and Economy. Recent improvements have reduced the friction joints from 60 to only 4, and being provided with patent lubricating cups, it may run thirty days by once oiling. It may be cheaply mounted, (the smaller mill costing only $55.00), or by an artistic tower it may be set to become an ornament as well as an invaluable convenience at every suburban residence. I would be pleased to attend those in want, or refer to engineer at Torpedo Station, whose practical experience will enable him to explain its merits more fully.
